Peels

(Free consultation available)

Diamond Peel Dermabrasion	£40
<small>Using hundreds of tiny diamonds this treatment removes layers of dead skin cells from all areas of your face. Elastin and collagen fibre are simultaneously stimulated by a controlled suction method to encourage cellular renewal resulting in smoother, softer, firmer, and more radiantly youthful skin even after just one treatment. However a course of treatment is recommended for maximum results. (Buy 4 and get one free)</small>	

New Skin Peel Treatment (by Colin Paris Resultime)	£65
<small>This treatment offers a visible transformation, it will erase dead skin and reduce wrinkle depth and scaring. Your skin will be smooth, soft, radiant and youth mechanisms will be reignited with a new skin effect.</small>	

DermaPeel	£65
<small>Derma peel is the first medium-depth (papillary dermis) Cosmeceutical peeling treatment for beauty institutes and Medical-aesthetic clinics. With intense it exfoliates the skin in depth. Your skin is immediately smoother and brighter after the first session. (Buy 5 and get one free)</small>	

DermaPeel Advance with Electroporation (mesotherapy)	£95
<small>Mesotherapy is a method of introducing medications, traditional pharmaceuticals, vitamins, minerals and amino acids into the mesoderm or middle layer of the skin without needles. (1hrs 15mins or 3 treatments for £350)</small>	

Mesotherapy

Needle-free Mesotherapy (Electroporation)	£45
<small>Mesotherapy is a method of introducing medications, traditional pharmaceuticals, vitamins, minerals and amino acids into the mesoderm or middle layer of the skin without needles. This treatment can co-operate with Derma pen treatment, with derma peel or a facial. Incorporate with any of those above facials for £30 extra</small>	

Derma Pen with Vitamins (Mesotherapy)	From £45
Price upon consultation	
<small>The skin needling system MESO Pen Treatment incorporates a highly effective electronic device coupled with a bespoke Mesotherapy cocktail that takes skin needling or transdermal needling to the next level. The SNS MESO Pen is used to vertically pierce the skin to produce hundreds of tiny injuries whilst protecting the epidermis. The result can be an effective method of transporting products such as liquid hyaluronic acid, vitamins and peptides into the epidermis or a natural stimulation of collagen when piercing the dermis.</small>
